DS-ProCapture-T

Fingerprint Access Control Terminal

DS-ProCapture-T is an access control terminal applying the most advanced Silk ID fingerprint sensor. Its outstanding performance provides a high identification rate towards dry, wet, and rough gfingers, being capable to detect alive finger for a higher security level.

The fingerprint verification speed has been dramatically increased by its optimized fingerprint algorithm and the brand new ZMM20 hardware platform, equipped with a fast 1.2GHz processor.

The touch keypad delivers a smooth and easy user operation to enroll and delete users, set device and access control parameters, etc. Its built-in camera allows to capture user's photos and events snapshots to provide attendance evidence (optional function).
